**Subject:** FYI - CZARA update

The landslides rationale has been revised. Allison inserted it into the "final" doct. Provided her my comments on the "landslides response to comments" document. I believe Landslides is ready to go out to the management team on the 21<sup>st</sup>.

Currently incorporating Stephen's comments into the Riparian Rationale....quite extensive. Will work on them more tomorrow then will go to roads.

Do plan to get both Roads done and Stephen's comments addressed by the end of the week.
